The Michigan Department of Environmental Quality (MDEQ) Wetland Inventory Map is intended to provide an overview of wetland areas in the state of Michigan. This map was produced by the Michigan Department of Environmental Quality (MDEQ) and was compiled with funding from the U.S. Environmental Protection Agency (EPA). The MDEQ produced this map from the following data obtained from other agencies or organizations:

1. The National Wetland Inventory (NWI) conducted by the United States Fish and Wildlife Service through interpretation of aerial photos and topographic data.
2. The Michigan Resource Inventory System (MIRIS) conducted by the Michigan Department of Natural Resources (MDNR) from a variety of data sources.
3. Rules as reported by the United States Department of Agriculture, Natural Resources Conservation Service (USDA-NRCS).

The map is not intended to be used to determine the specific locations and boundaries of wetland areas subject to regulation under Part 303, Wetlands Protection, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended. This map is not intended to identify all potential wetlands in a county (it may show wetlands that are not actually present and it may not show wetlands which are actually present). This map is intended to be useful as an overview map for both professional and nonprofessional uses. This map may not identify all potential wetlands in a county. It may show wetlands that are not actually present and it may not show wetlands which are actually present. This map is not intended to be used to identify regulatory jurisdiction.

More information regarding this map, including how to obtain a copy can be accessed at www.mdeq.state.mi.us/wetlands.

Legend

- Interstate Highways
- US Highways
- State Highways
- Railways
- Open Water
- Rivers
- Drains
- Wetlands as identified on NWI and MIRIS maps
- Soil areas which include wetland soils
- Wetlands as identified on NWI and MIRIS maps and soil areas which include wetland soils
- County Boundary

This map was compiled by MDEQ October 26, 2006.
